Full Stack Web Developer with a passion for design. Earned a certificate in Full Stack Web Development from the University of Washington Coding Bootcamp. Learned how to be creative, problem solve, deal with unpredictability, and work through stressful situations from experience working with children. I enjoy building web pages and applications. I love being part of both the front-end design as well as the back-end process.

TECHNICAL SKILLS
Frontend: HTML, CSS, JavaScript, SQL, NoSQL
Applications: MySQL, MongoDB, GitHub
Tools: Express, React, Node, Handlebars, Query, Bootstrap

PROJECTS
State Covid-19 Tracker | GitHub Repo: https://tinyurl.com/1oruwtwc | Deployed App: https://tinyurl.com/o5ftj4z7
A United States Covid-19 tracker that displays current and historic positive cases, hospitalizations and deaths.
